# CELENIO by HARO

## The unique wood floor

---

Wood is a versatile natural material. With CELENIO by HARO we have created a material made of wood that harmonises exceptional foot warmth and the look of natural stone. From this material we can produce floor coverings that are astounding in every respect and open up a completely new era of floor design.

---

Your eyes tell you it's stone ...  
... but your touch reveals that  
it is wood.

---

What if a floor had the stylish look of slate or sandstone, but was as warm and elastic as a noble parquet floor? Welcome to CELENIO by HARO – We have successfully created a floor that combines all of these features. The material Harolith has made it possible for us to create an entirely new interpretation of a wooden floor and to develop it into a unique floor covering that looks like stone. CELENIO playfully combines the cool look of stone with comfortable warmth. Test CELENIO yourself at your nearest HARO Partner. The feeling of seeing stone but seconds later feeling wood is hard to describe – it is something you need to experience!

# The wood floor with a difference – uniquely natural.

---

**Naturally**  
CELENIO is made completely of wood. In contrast to floor coverings with layer superstructures, it is of particularly high quality.

**Incredibly warm to the touch**  
Wood in a different form creates more comfort.

**Amazingly break-resistant**  
CELENIO impresses with its high level of elasticity.

**Easy to clean**  
As a wooden floor, CELENIO is very easy to clean with clean & green natural.

**Easy to install**  
With Top Connect, probably the easiest installation system in the world.

**CELENIO with Silent Pro**  
Pleasant acoustics due to minimised impact and room sound.

# *Ardesia Onyx*

The noble look of black slate and an authentically elegant surface texture give this CELENIO variant its harmonious appearance.

## *Atrium Anthrazit*

The Atrium surface is the most natural and distinctive one in the CELENIO range. Its noticeable indentations and elevations in combination with the dark anthracite shade are reminiscent of freshly broken slate.

# *Athos Achat*

The Athos natural stone design appears varied, yet discreet. The Achat design brings vibrancy and powerful contours into spacious rooms.

# *Athos Concrete Grey*

Concrete designs are increasingly being used for interior designs due to the deliberate cool they express. This attracts particular attention as a floor covering - especially in combination with the unexpected foot warmth of CELENIO.

## *Athos Polar Grey*

This cool shade of grey is reminiscent of the diffuse light of the polar regions – the textured natural stone surface enhances the effect of this CELENIO variant.

# *Athos Ferro*

Metallic shine and coarse stone are the colour accents that make the Ferro style an eye-catcher. The visual effect is discreetly supported by the surface texture with its delicate relief.

# *Athos Savanna*

Sandstone was the inspiration behind the development of the Savanna design. This CELENIO variant gives rooms the appearance of gentle sunshine and makes them appear brighter and more spacious.

# *Athos Sahara*

The Athos design in the colour Sahara stands for a friendly, open living feeling – emphasised by the discreet texture with its pleasant feel.

# Installation on the wall

---

Purists also install CELENIO on the wall. There the natural, extravagant appearance is displayed to maximum effect. It is easy to install with the tried and tested installation system using clips and rails.

The corresponding installation instructions as well as the respective installation video can be found at [www.haro.com/montage](http://www.haro.com/montage) (product range Accessories) or directly via this QR code.

# Installation

CELENIO is also particularly suitable for the design of your kitchen due to its break resistance and insensitivity to moisture. The low construction height also makes this exceptional floor ideal for renovations. CELENIO – A floor people will talk about!

## INSTALLATION SYSTEM

### TOP RESULTS WITH TOP CONNECT

Professional installation for everyone – easier and quicker than ever. Top Connect is probably the world's easiest installation system: it can be installed entirely without tools.

You can install your HARO quality floor in no time - if you move house, you can take it out again just as easily.

- Very quick to install
- High-precision system for professional results
- Easy to put in, easy to take out
- Secure connections at the joints on the short and long sides
- Suitable for glue-down installation

# Insulation layer Silent Pro

## COMFORT WITH EVERY STEP

An insulation underlay is generally recommended for all hard subfloors. It increases the floor's resilience, absorbs indoor and footfall sound, and evens out minor irregularities of the subfloor.

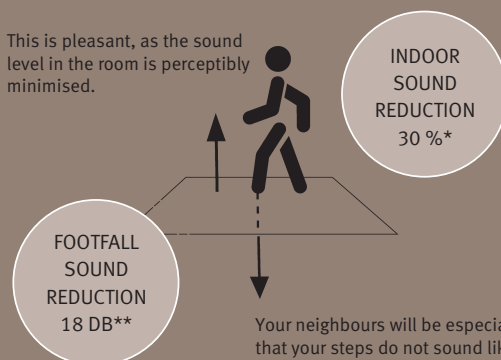

Especially recommended:  
The factory-laminated insulation layer

- Excellent insulation against footfall and room sound
- The "forest floor effect" is easy on joints and back

- Insulation and installation in a single step
- Suitable for installation over underfloor heating
- Easy and clean to cut
- Environmentally safe disposal of cuttings in domestic waste

This is pleasant, as the sound level in the room is perceptibly minimised.

Your neighbours will be especially pleased that your steps do not sound like thunder.

\* Maximum individual values achieved in accordance with the EPLF Impact Hammer test (compared to reference floor)  
\*\* In accordance with DIN 140-8

# Care

We have developed the innovative clean & green floor care series for the sustainable care of HARO PARQUET. It makes it easier than ever to clean and maintain our floors and is completely safe and environmentally friendly.

	ID no.
clean & green natural	407 716
Polishing cloth (10 pcs./bag)	403 139
Floor Cleaner Set	407 448
Cotton cover for floor cleaner set	407 449

**Floor care aqua shield**  
Durable refurbishing and maintenance of prefinished parquet and CELENIO.

**Parquet Cleaner 'natural'**  
Eco floor care concentrate For regular cleaning of all parquet surfaces and CELENIO.

For regular dry cleaning of HARO floor coverings, we recommend vacuum cleaners from Kärcher. For regular damp cleaning of the HARO floor coverings, we recommend the flat wet-mops Ultramat Klassik, WischMat extra or Premium 5 from Vileda.

# Product variety from HARO

In its diversity, wood is a fascinating material. We stand by our passion for wood and use its natural appeal, powerful ambience and diverse properties as the basis for stylish living with our products for the home.

## HARO PARQUET

Our Parquet Floors are made exclusively of the highest quality wood. With a HARO Parquet, you can lastingly enhance your rooms and enjoy the highest level of living comfort for many years to come.

## HARO LAMINATE FLOOR

Laminate floors are made of up to 90 percent wood. This means that the positive properties of real wood floors are combined with the technical benefits of artificially produced surfaces.

## DISANO by HARO

DISANO is not only the perfect solution for modern and vibrant living. DISANO also creates a 100% healthy living environment and is produced without the use of any plasticisers or other environmentally hazardous substances.

## PARKETTMANUFAKTUR by HARO

What emerges here from masterful craftsmanship are floors that are unsurpassed when it comes to noblesse and uniqueness. With real workmanship, the most precious woods are processed into top class parquet floors.

## INTERIOR

With HARO Interior you can also use the natural charisma of precious wood for wall design and panelling on the sides of the stairs. As a perfect eye-catcher, you will also find the "HARO Table" here.

## CORK FLOORS

For decades, cork flooring was found almost exclusively in children's rooms and day care centres. This was owed to its underfoot warmth and soft surface. We have made it attractive as a real alternative for stylish living.

# The Company

---

Company management in  
the fourth and fifth generations:  
Peter Hamberger and  
Dr. Peter M. Hamberger

As a family-owned company that produces in Germany and is regarded as an innovation driver in the industry, we have been engaged in the professional processing of wood for over 150 years. We are committed to sustainability and innovation in all our actions. This has not only made us Germany's leading parquet manufacturer: The expertise in wood and the instinct for the demands of the market lay the foundation for new developments that revolutionise the market, enriching healthy living and elegant interior designs with new trends. CELENIO by HARO is a good example: With the development of Harolith, we have succeeded in creating a symbiosis of the look of natural stone and the feel of wood. Your eyes tell you that it is stone – your touch reveals that it is wood. With CELENIO by HARO you bring a completely new aesthetic into your living spaces and at the same time experience a floor covering that sets standards in terms of resistance, warmth and puristic appearance. The unique wood floor from the parquet specialist.
